No matter their background, girls have the power to transform themselves, their communities and the world around them. Girl Up is a global leadership development initiative, positioning girls to be leaders in the movement for gender equality.

Girl Up is transformative. Girls join Girl Up because they want to change the world, and Girl Up provides leadership training and gives girls tools to become gender equality advocates and activists.

Our girl leaders broaden their social impact skill set, benefit from a platform to tell their stories and apply STEM for social good. Through these skills, girls create real policy change at local and national levels, help raise millions of dollars to support United Nations programs that reach tens of thousands of girls around the world and build community-based movements.

Girl Up was founded by the United Nations Foundation in 2010 and continues to work across a global community of partners to achieve gender equality worldwide.
