Why Girl Up?

We develop transformative leaders who advance gender justice worldwide.

LEADERSHIP

We provide girl-centered, evidence-based programming to change the face of leadership for generations to come.

GENDER JUSTICE

We power a force for social good that advocates for policy change to expand and protect girls' rights.

GLOBAL COMMUNITY

We connect girl-led clubs, youth leaders, affiliates and partners, welcoming all gender identities across 152 countries.

INTERSECTIONAL ACTIVISM

Our Girl Up leaders are advancing advocacy across intersectional issues including education, reproductive health, violence prevention, climate change, mental health and well-being, and closing the gender gap in STEM, sports, pay, and leadership.

SOCIAL IMPACT SKILLS

We strengthen and train leaders' skills in organizing, community building, advocacy, fundraising, service, and storytelling to position girls to lead with greater impact.

Advancing Gender Justice

Our Vision

Girl Up envisions a more equitable and just world for girls and women, which benefits all people.

We are on the cusp of a new generation moving into positions of influence, working to address global and intersecting crises, leading with empathy and creating a better future for everyone.

By 2030 we will mobilize ONE MILLION Girl Up leaders around the world.

Signature Programming

CLUBS

Girl-led Clubs consist of middle school, high school, and college aged girls. Girl Up has inspired 6,300 Clubs in 152 countries, providing leadership training to more than 195,000 worldwide.

TEEN ADVISORS

As the heart and soul of Girl Up, our Global Teen Advisory Board ensures that we stay authentic to our girl-led mission. Each year Girl Up selects ~20 girls from hundreds of applicants globally.

COALITION LEADERS

With 30+ new Clubs joining Girl Up each month, regional Coalitions have formed to help Clubs work together. Each year, many of these Coalitions put on girl-led Regional Summits.

Issue Areas

Girl Up's issue areas are informed by our network of youth leaders and central to our programming. We build curriculums, events, and trainings centered around the issues our youth care about.

Our Impact

In twelve years, Girl Up has proven the power of investing in girl leaders. As we have galvanized and connected these fierce young activists around the world, the potential of their influence is clear.

As they step into positions of power, imagine what the world can be with one million Girl Up members leading the way.

Girl Up has doubled in size since the start of the pandemic. Young people are rising and Girl Up is poised to meet them in this moment.

As an organization, we are working to meet our exponential organic growth, build platforms, reach a more diverse audience, launch national affiliates, and strengthen resources to maximize the potential of our girl leaders.
