

# **WISCI SOUTHEAST ASIA CORPORATE PARTNERSHIP DECK**

**JUNE 1-9, 2024  
KOCHI, INDIA**

We develop transformative leaders who advance gender justice worldwide.

## **LEADERSHIP**

We provide girl-centered, evidence-based programming to change the face of leadership for generations to come.

## **GENDER JUSTICE**

We power a force for social good that advocates for policy change to expand and protect girls' rights.

## **GLOBAL COMMUNITY**

We connect girl-led clubs, youth leaders, affiliates and partners, welcoming people of all gender identities across 152 countries.

# Global Presence

# WiSci Camps

Women in Science (WiSci) STEAM camps provide a **safe, supportive, and girl-centered environment**, bringing together up to 100 teen girls from two or more countries in person for a week while exploring their interests in STEAM. There is no cost for the participants.

Camps include **STEAM and girls' leadership development curriculum**, mentorship opportunities, skills training, and exposure to role models from their regions working STEAM.

Girl Up, in collaboration with the State Department and partners, has implemented 13 WiSci camps since 2015, **impacting 1,200+ girls from 35 different countries and over 40 US states.**

# Girl Up India

Girl Up commenced operations in India in 2018. Since then, the movement has grown to be the second-largest Girl Up Community globally.

Programming like STEM for Social Good Bootcamps, Leadership Summits, Coffee Connects, menstrual equity campaigns, and more, have supported and engaged a Community of **25,000+ young changemakers.**

**25,000+**

# WiSci India 2024 Details

- June 1-8, 2024
- In-person, residential camp in Kochi at Rajagiri School of Engineering & Technology
- 100 youth from India, Sri Lanka, Bangladesh, the Maldives, and the US.

# Corporate Partnership

To motivate girls to pursue STEAM and close the gender gap, we need collaboration between the private, public, and nonprofit sectors. WiSci was born out of the US State Department, Office of Global Partnerships as a shining example of what a true private public partnership can accomplish together.

*That's the beauty of WiSci - bringing us together to create a better world for girls, women, and all people.*

# Corporate Partnership

Corporate partners have the opportunity to:

- Equip 100 girls with STEAM and leadership skills, leading to a ripple effect in communities across the region and world.
- Provide employees with a meaningful, skills-based volunteer experience.
- Connect with US government agencies and key personnel.
- Engage in various sessions throughout camp (detailed on the next slide)

Corporate partners contribute financial donations ranging from \$25,000 to \$200,000 to support the costs with camp, in addition to staff time, travel, and accommodation expenses.

Previous partners include:

# Engagement Opportunities

**STEAM Session Facilitation:** engage employees to facilitate a educational STEAM sessions on a specific topic, such as “Artificial Intelligence of Chatbots”, “Utilizing Design Thinking for your STEAM Final Project”, and “Sustainability in Engineering”.

**Women in STEAM Panel:** engage a woman in leadership to serve on the panel to discuss her career trajectory, her experiences as a woman in STEM, and give guidance to the campers.

**Mentorship Session:** At this career fair-style session, a group of employees will stand at a booth/table and campers will approach to speak with the employees one-on-one and ask questions, build personal connections, and seek guidance.

**STEAM Final Project Presentation:** Throughout the week, campers work in small groups on a final project using STEAM to address a social issue. At this science fair-style session, campers will present at booth/tables for employees to give feedback.
